

## **United Way 2007 Grants Exceed \$121,000!**

This year United Way of San Juan County has granted a record \$121,450 to local human services programs throughout the County. For the past ten years, United Way has worked to build its capacity to serve families and children in our island communities. United Way has a comprehensive allocations process that requires applicants to report on successes and demonstrate results. Over its decade long history, United Way has granted nearly \$1 million, helping thousands of island residents. No monies are allocated outside of San Juan County. Thanks to the generous contributions of many, grants have been awarded to the following:
