

SAN JUAN COUNTY PUBLIC WORKS NOTICE CATTLE POINT ROAD RECONSTRUCTION

San Juan County Public Works is reconstructing Cattle Point Road between Little Road and False Bay Drive. Work began April 25th, and will be completed in August.

This area of Cattle Point Road will be closed to all through traffic, including bicycles and mopeds, on weekdays from 8 am to 5 pm. Local access to locations between Little Road and False Bay Road will be allowed, but no through traffic. An alternate route is established for travel to and from areas north of Little Road, and south of False Bay Road.

Use of the alternate route will add less than eight minutes to your travel time at the posted speed limits. Please plan your trips to include the extra time.

This is a short-term inconvenience that will have long-term benefits. The improved road will provide greater safety to vehicles, pedestrians, and bicycles.

We thank you for your cooperation and patience during construction.

TOGETHER WE WILL MAKE IT HAPPEN
